Professional Summary

Entry-level Machine Learning and Full Stack Developer with a B.Tech in Electronics and Computer Engineering. Skilled in Python, TensorFlow, computer vision, deep learning, React.js, Node.js, MongoDB, SQL, and REST APIs. Built healthcare AI and verification dashboard projects using image preprocessing, model evaluation, authentication, analytics, and responsive web interfaces.

Technical Skills

- **Programming Languages:** Python, C++, SQL, C.
- **Machine Learning:** Deep Learning, CNN, ResNet, TensorFlow, Computer Vision, Image Processing, NLP, Transformers, Regression, Classification, Unsupervised Learning, Data Preprocessing, Data Validation.
- **Web Development:** HTML5, CSS3, JavaScript, TypeScript, React.js, Angular, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Responsive Web Design, UI Component Development.
- **Tools & Platforms:** Git, GitHub, MySQL, PostgreSQL, AWS, MS Office Suite, Power BI, Browser Developer Tools, IoT.
- **Cybersecurity:** Penetration Testing Tools, Kali Linux, Network Security Fundamentals.
- **Soft Skills:** Problem Solving, Adaptability, Team Coordination, Work Ethic, Reliability, Communication.

Education

B.Tech in Electronics and Computer Engineering SRM Institute of Science & Technology, Ramapuram.	2021 - 2025 CGPA: 7.47
--	----------------------------------

Higher Secondary Education, 2019 - 2020 Velammal Matriculation Higher Secondary School, Ponneri.	Percentage: 74%
--	-----------------

Secondary Education, 2018 - 2019 Velammal Matriculation Higher Secondary School, Ponneri.	Percentage: 88%
---	-----------------

Projects

Diabetic Retinopathy Disease Detection Using Deep Learning

- **Technologies Used:** Python, TensorFlow, CNN, ResNet, Computer Vision, Image Preprocessing, Data Augmentation, Data Validation, Model Evaluation.
- Developed a deep learning workflow to support diabetic retinopathy detection from retinal images and improve early screening accessibility.
- Built data preprocessing pipelines to standardize 1,000+ retinal images and maintain consistent input quality for model training and analysis.
- Performed data cleaning and validation on raw medical image datasets to remove artifacts and improve model readiness.
- [GitHub Repository](#)

TrustSphere – Verification Intelligence Dashboard

- **Technologies Used:** Angular, TypeScript, Node.js, Express.js, MongoDB, JWT, Socket.IO, ApexCharts, REST APIs, HTML, CSS, SCSS.
- Built a role-based verification and security dashboard with JWT authentication, Admin/User access control, fraud monitoring, audit logging, and user management.
- Implemented real-time notifications, paginated data views, cached analytics, MongoDB indexing, and responsive dark/light theme interfaces for efficient monitoring.
- [GitHub Repository](#)

Certifications

- Python - GUVI
- C programming – Bharathidasan University (IECD)
- Course on PSpice - Livewire
- IOT using Smart Devices - TVS Training
- PostgreSQL bootcamp - Udemy
- Dark web - GUVI
- Ethical Hacking (Tools) – GUVI

Workshops / Trainings

IOT using Smart Devices - TVS Training

- Completed IoT training with hands-on sensor interfacing using Arduino UNO and embedded system components.
- **Project:** Developed a Smart Pill Box System for bipolar disorder patients using IoT-based automated medication reminders and management.

Hands-on Experience with PSpice and Livewire

- Designed and tested analogue and digital circuits using PSpice and Livewire for circuit simulation, analysis, and performance evaluation.

AI Tools Workshop

- Completed the be10X AI Tools Workshop with hands-on practice in AI-powered productivity and data analysis tools.
- **Key Skills:** AI Automation, Generative AI, AI-powered Data Analysis, Prompt Engineering.

Novi Tech R&D Pvt Ltd

- Completed a 30-day Full Stack Development Workshop focused on building web applications with frontend and backend technologies.
- **Key Skills:** HTML, CSS, JavaScript, React.js, Node.js, MongoDB.

Activities

Student Coordinator for ELEXCA'24:

- Coordinated technical events for ELEXCA'24 at SRM Institute of Science and Technology, supporting event planning, team communication, and smooth execution.

Leadership Skills: Team coordination, workflow planning, issue resolution, analytical thinking, risk assessment, and data-driven decision-making.
